HAYWARD®

Easy and maintenance-free with Hayward® PSV.

Hayward PSV Series check valves and 2-way and 3-way diverter valves make water flow management simple and maintenance free. Durable CPVC body and lid construction provide greater heat tolerance, preventing warping and leaks in the most demanding environments. All components are made of corrosion resistant materials allowing for improved performance over an extended life. PSV Series valves are available in multiple materials, size and port configurations to accommodate most new construction and aftermarket applications.

PSV3SM and PSV3SMDGR models feature externally threaded ports for use with one SP1500UNPAK1 union fitting included with each valve.
