

WATERKING AUTOMATIC TABLET FEEDERS

Automatic pool and spa sanitisation

The Waterking Automatic Tablet Feeder is an excellent low cost form of automatic sanitisation, eliminating the need for the regular addition of granular chlorine (or the equivalent) to your pool or spa.

Waterking Automatic Tablet Feeder

The Waterking Automatic Tablet Feeder is fully adjustable to control the amount of sanitiser that is added to the pool or spa.

By simply filling the container with Giant or Mini Chlorination Tablets or Bromine Sticks, the Waterking will ensure that your chlorine or bromine level is constantly maintained, giving you safe, clear, sparkling water all year round.

Please note: the Waterking can only chlorinate Swimming Pools under 50,000 litres in size

Construction

The Waterking Automatic Tablet Feeder represents the latest developments in chemical feed technology. Its robust construction, corrosion and UV resistance, and reliance on one simple venturi operation, make Waterking the obvious choice in automatic pool sanitisation.

Warranty

Waterking Automatic Tablet Feeders are covered by Waterco's comprehensive 12 month warranty (from date of purchase).
